Bài 1: Câu lệnh SQL không kết nối

1.

The screenshot shows a MySQL IDE interface. At the top, a SQL query is entered in the editor:

```
-- Câu 1
select *
from sinhvien
order by mssv asc;
```

Below the editor, the 'Result Grid' displays the query results. The results are sorted by 'mssv' in ascending order. The table has 8 columns: mssv, hoten, GT, ngaySinh, noiSinh, diaChi, and maKhoa. There are 10 rows of data, followed by a row of NULL values.
